### **Austria was one of the most successful Executive Search locations in 2010**

The five partners of the Stanton Chase International Vienna Office, Gert Herold, Alexander Kail, Franz Rois, Heimo Hecht and Michael Schaumann, are celebrating a very special distinction. On the occasion of the “Global Partner Meeting” of Stanton Chase International from November 11-14, 2010 in Düsseldorf, the Vienna office of the international Executive Search Company was honored with the “Business Referral Office of the Year Award”. The crucial factor for this success was the high number of international and cross-border projects which were initiated through Stanton Chase Vienna.

“Once again the Vienna office of Stanton Chase has proved its fundamental importance as a key platform in Central Europe and also emphasizes the importance of Austria as a strong investor in Eastern and South-Eastern Europe,” is how Gert Herold describes the formula for success which the five partners pursue.

Stanton Chase has 70 offices in 44 countries worldwide and employs over 270 consultants. The Stanton Chase Vienna office belongs to the top five Executive Search companies in Austria.
